

FORscene

Upload Guideline

FORscene Load – *Free with account*

How to Download:

1. Log onto the Forbidden Technologies webpage to download FORscene Load:
<http://www.forbidden.co.uk/products/forsceneload/>
2. Select either the Mac, PC or Linux and click “Download”.

For PC: Select “Run” from the Security Warning pop-up window, which will then start the Setup Wizard.

For Mac: Click on “Continue” in the Downloads manager, and click and drag FORscene icon into applications.

How to start Uploading Material:

For PC: Enter username and password, then click on “Connect”. Now select either “Video Capture” (to upload directly from a tape deck or camera via Firewire) or “File Capture” to upload an AVI file from your hard drive.

For Mac: Click on the “Log in” button in the top right-hand corner. Now enter your username and password. Once logged in, you can click and drag the desired file into the general area. Supported files include .MOV’s, JPEG’s, and WAV files. To capture from a tape deck or camera with Firewire click “Capture”.
